## MARKET SHOWS MUCH ACTIVITY

Rescue Reported to Have Cut Large Body in Eastern End of District

Some idea of the rash of orders on the market today may be gained from the sharp appreciation in the leading stocks. Ifrougher rose up to 15, Belcher Extension to 7, Kernick to 19, Alto to 6, Hasbroek to 6, Victory 12 and Gold Reef, which had been off the board, sold at 4. Some of the sales were of stocks that have not been seen in the quotations for the past three months. The sentiment also reached Arrowhead, which sold up to 11 on extensive orders from Tonopah.

The Tonopah list was strong, but suffered from contrast with the activity of the Divides, and as a consequence prices were shaded a trifle from the high of the day before.

For several days it has been noted that Rescue had opened a large body of ore in the 1100 workings, which represents the lowest level of the mine. The report received substance today when it was officially learned that Rescue had opened what appears to be one of the largest ledges in the eastern end of the Tonopah district. On the 1100 ore better than good milling, interspersed with high-grade was cut, and a crosscut started to ascertain the width. At this morning's survey the machines were still in ore and Manager Moore began to think that the two upper ore bodies had joined and were making into an enormous body. On the 1000 level the two veins were 35 feet apart with a flat tip and it begins to look as though these had met in the 1100. Values are richest on the foot-wall. The find is close to the Belmont line, but there will be no trouble on that score, as the Rescue is fully protected by an agreement negotiated with the Belmont by the late John F. Chandler when he was manager of the property and several years in advance of any indications that the big values of the Rescue would develop in that direction.

## MILL EMPLOYEE IS FOUND DEAD

Heart Trouble Given as Cause of Death of Julius Johnson at Millers

No trace has been found up to a late hour this afternoon of the relatives of Julius V. Johnson, an employee of the Tonopah Mining company's mill at Millers, who dropped dead yesterday afternoon shortly after 5 o'clock. Little is known concerning the man. He came to this city a short time ago and applied for a position with the company at Millers, entering upon his work there about four days ago. While at work yesterday afternoon he fell, and Dr. C. H. Church was called, but all efforts to revive the man failed. The name of a Mrs. Johnson in San Francisco was found among his effects, and Frank J. Cavanaugh has wired her, but has not yet received an answer. It is said that the man was a member of the San Francisco post of the American Legion and efforts are being made to locate his relatives through that source.

An inquest was held over the body last evening and the verdict returned was to the effect that heart failure was the cause of death. He was a man of about 25 or 28 years. The remains are in charge of Wonnott & Cavanaugh, undertakers.

## RESCUE OF AMERICANS IS FORSEEN

French Advance in Asia Causes Hope For Relief of Besieged Workers

(By Associated Press.)  
CONSTANTINOPLE, Aug. 21.—Advices to the French mission here report the capture of Tarsana, Asia Minor, by French troops, and hope is now held for the American relief workers who have been besieged in Adana since June 20.

The siege of the city was described by Webster Anderson of Crawfordville, Indiana, who has arrived in Constantinople after escaping from Adana August 7 and walking south east to the Mediterranean.

Turks Raid at Night  
The Turks encircling Adana have little artillery, according to Anderson, and consequently make night raids, when the entire town is raked. Thus far the Americans have not been injured, but their buildings have been peppered.

The French artillery in Adana kills many Turks and affords cover for the troops which make frequent sallies into the surrounding farms and vineyards for food. The Americans are maintaining soup kitchens and workshops for 10,000 Armenian refugees. All but 300 of the orphans of Adana have been sent to Cyprus.

They came to see Harry Stimler about pressing developments as they believe the property will make the greatest lead shipper in the United States, and they do not like the idea of hiding the fame of the property under a bushel on account of a little heat in the valley, which on their departure two days ago registered 122 degrees.

Profiteering in Sugar Charged Against Officials of the Utah Sugar Company

(By Associated Press.)  
SALT LAKE CITY, Aug. 21.—Indictments charging the Utah-Idaho Sugar company, its officers and many other prominent Salt Lake and Ogden businessmen with having made exorbitant profits in the sale of sugar in violation of the Lever act, were returned by a special United States grand jury which has been in secret session here since August 11.

The officers were arrested some time ago by federal agents when they increased the price of sugar to the wholesalers by a raise of over \$10 per 100 pounds, giving as their reason that the price of cane sugar was higher and that eastern commission men were draining the west of sugar by buying it at a low price through Utah and Idaho and shipping it east to resell at the higher prices offered there.

Antis Leave State to Prevent Quorum But House Overrules Speaker and Takes Final Action on Amendment Fight Will Be Carried into Courts For Decision.

(By Associated Press.)  
NASHVILLE, Tenn., Aug. 21.—The lower house of the Tennessee legislature defeated, 50 to 9, a motion to reconsider its action ratifying the Walker amendment, and ordered the joint ratifying resolution transmitted to the senate so that it might be sent to the engrossing clerk.

(By Associated Press.)  
NASHVILLE, Tenn., Aug. 21.—The meeting of the Tennessee house today to clinch ratification of the suffrage amendment was blocked by the anti-suffrage members, 30 of whom left Nashville last midnight for Alabama to make impossible a quorum at the session which was to have opened at 10 o'clock this morning.

Only 59 members, seven less than a quorum, answered to their names when Speaker Walker called the house to order. The speaker declared the house in recess to give the sergeant-at-arms time to round up the absentees. But since 30 of the absent members were reported to be at Decatur, Alabama, however, there seemed little prospect that a quorum would be had.

J. Riddick, the suffrage leader, declaring the legislature was acting under federal and not state law in considering the suffrage amendment and that the state constitutional quorum was not necessary, moved the Walker amendment should be taken from the journal. The speaker held the Riddick motion was out of order but the speaker was overruled on appeal to the house.

Chancellor James Newman today issued a writ of injunction temporarily restraining Governor Roberts, Secretary of State Stevens, and the speakers of the Tennessee senate and house from certifying to Secretary of State Colby Tennessee ratification of the woman suffrage amendment.

## STRIKE IN GOLD ZONE CONFIRMED

Orebody Is Reported 12 Feet Wide Interspersed With High Grade

Gold Zone is in ore. There is not the slightest doubt about it. Nevertheless, this is nothing more than was expected. The prediction was not premature, for three months ago the management gave out the information that by the middle of October the company would have a showing that would surpass all but the leader of the market and bring in important developments for other properties in the same side of camp. The strike was made three days ago when all stringers of sulphides carrying light values began intruding in the crosscut. These have widened and merged into an ore body that this morning was reported to be 12 feet in width with values ranging from \$15 to \$200 spattered with real high grade. The quotation for Gold Zone stock closed last evening at 27, rose to 35 at the opening this morning, in spite of the fact that Saturday is usually an offday for all stocks. Nothing could resist the optimism engendered by the news from Gold Zone and the entire list of Divide stocks skyrocketed with a buoyancy that brought hail to many an aching heart whose owners had cherished visions of a comeback for the securities of the Divide district.

## URNS MONEY OVER TO SWIMMING POOL

Ramsey, of the committee of the American Legion which was in charge of the Fourth of July picnic, today turned over to the directors of the swimming pool a check for \$19.25, which was left over after all bills were paid. The Legion has already taken an active part in providing a place for the children of the city to swim, and have erected a sun porch on the west side of the bathhouse. They have also connected the water with the shower bath so that swimmers may take advantage of that convenience.

FLAGSTAFF, Ariz., Aug. 21.—16 dancers of the Hopi reservation have been gathering snakes and making other preparations for months for their annual snake dance to be held August 23. Tourists from many parts of the United States have attended the dances in the past.

The date and place of the dance is not revealed until shortly before the event is to occur. The date depends upon the moon, which must be in a certain position at the time of the dance, to make it a success. Elders of the tribe have announced they think the moon will be just right August 23. The dance, it is believed, will be held at Hotevilla, a village on the Hopi reservation 120 miles north of here.
